

Monarchs make an amazing journey. Every fall, they **migrate**. This means they move. They take to the skies! They travel a long, long way.

Those in the West head for California. They fly to the coast. Those in the East and Midwest head south. They fly to a cool, damp forest in the mountains of Mexico.

HEY, WHERE ARE  
YOU GOING?

## The National Wildlife Federation & Ranger Rick

The National Wildlife Federation (NWF) strives to unite all Americans to ensure that wildlife thrives in a rapidly changing world. It believes that healthy water, clean air, and public lands are a birthright of all Americans. From the tiniest of insects to the largest of mammals, the NWF wants to ensure the legacy of America's wildlife for future generations.

In January 1967, a new conservationist came on the scene. Knowledgeable, small, and furry, this little leader was ready to foster a healthy and life-long appreciation of nature in children. His name: Ranger Rick! More than 50 years later, Ranger Rick continues to entertain and educate children about the natural world through various media, including the highly successful magazine series.
