

Inside the nest, the baby mice grow. At first, they are pink and hairless. And, they are oh so tiny!

Within a week they have hair. When they are two weeks old, the baby mice are out playing. Soon they will be living on their own.

DO YOU SEE
THE YOUNG MICE HOLDING
TAILS? THIS HELPS THEM
FEEL SAFE.

Let's Get Ready to Read!

Dear Parents and Educators,

This guide will help your reader explore, examine, and engage with the nonfiction book Mini Mice. The included activities will strengthen their reading comprehension skills and provide them with opportunities to write and talk about the text. Your reader will delve into the text and analyze it in a more structured and detailed way. Help your reader on their reading journey by working alongside them as they read the book. Ask and answer questions, and offer guidance and support, as needed. Be sure to read through pages 4–5 for helpful instructional ideas.

On this page, you will find information about Blue Star Education's partnership with Ranger Rick and the National Wildlife Federation as well as some fun activities to help foster your reader's love of reading!

Just 4 Fun!

- Work with other parents or teachers to arrange a book club meeting so your reader can discuss the book with peers. Provide a comfy, cool setting and some yummy treats!
- Set up a book nook! Find a quiet corner. Add a few blankets and pillows. Maybe grab a beanbag chair or poof! Be sure there is a lamp or overhead light and—voilà!—you have a nifty nook any reader would love.
- Challenge your reader to conduct further research on the topic mentioned in the book. Ask them to display what they have learned from their research in a creative way, such as a diorama, collage, or poster.

The Partnership

Blue Star Education's proud partnership with the National Wildlife Federation and Ranger Rick has made possible the creation of products that combine reading, writing, and science in an exciting and unique way meant to help enrich knowledge and appreciation of the natural world.

The National Wildlife Federation & Ranger Rick

The National Wildlife Federation (NWF) strives to unite all Americans to ensure that wildlife thrives in a rapidly changing world. It believes that healthy water, clean air, and public lands are a birthright of all Americans. From the tiniest of insects to the largest of mammals, the NWF wants to ensure the legacy of America's wildlife for future generations.

In January 1967, a new conservationist came on the scene. Knowledgeable, small, and furry, this little leader was ready to foster a healthy and life-long appreciation of nature in children. His name: Ranger Rick! More than 50 years later, Ranger Rick continues to entertain and educate children about the natural world through various media, including the highly successful magazine series.

ACTIVITY 2

Can You Picture It?

Directions: Read the text at the bottom of the page. Draw a picture in the box that will help the reader better understand the text.

Crowded House

The babies live in the nest with their mom. As the babies grow, the nest gets crowded. But that's okay! They won't be in the nest for long. When they are about two weeks old, the babies will head out on their own.
