RAISING A READER

Making reading a part of everyday life at home is easier than you think. Here are some fun and creative ways to enjoy books together as a family.

ENDLESS CHOICES

The goal is to build a love of reading. Offer choices! Comic books, magazines, cookbooks, biographies, graphic novels, science fiction, adventure, and fantasy books are all great options.

ON THE GO

Make a habit of grabbing a stack of books for car rides. Instead of handing over a screen, bring a book along for busy waiting rooms or restaurants.

THE READING RETREAT

Establish a cozy and inviting corner or nook in your home dedicated to one thing—reading!

LISTEN UP!

Consider including a pair of headphones and a tablet in the reading nook for listening to audiobooks on days your child doesn't feel like reading.
